(1) Windows Vista Service Pack 1 (SP1)  
Determine if your Windows XP-based PC can run Windows Vista, [click here](#).

(2) Windows XP Service Pack 3 (SP3)

CoCreate products are tested on the latest operating system service pack available at the time of release. Because system requirements define a minimum operating system service pack, a newer Microsoft service pack should not affect CoCreate products.

However, we cannot guarantee the correct functioning of CoCreate products on newer operating system service packs. If CoCreate products are incompatible with the newest service pack, we will attempt to remove the incompatibilities in the next service pack or major release of its products.

## Input Devices

| 3Dconnexion                  | Driver Version      |
|------------------------------|---------------------|
| Spaceball 4000               | 2.8.2               |
| SpaceMouse                   | 2.8.2               |
| SpacePilot                   | 3.4.2, 3.5.6, 3.6.6 |
| SpaceNavigator               | 3.4.2, 3.5.6, 3.6.6 |
| SpaceNavigator for Notebooks | 3.6.6               |
| SpaceTraveller               | 3.4.2, 3.5.6, 3.6.6 |
| SpaceExplorer                | 3.4.2, 3.5.6, 3.6.6 |

3Dconnexion input devices are supported on Windows XP Professional, Windows XP Professional x64, and Windows Vista 32-bit & 64-bit Editions operating systems.
