PTC Product Focus

Windchill ProjectLink 7.0 at a Glance

Integral Solutions

- Integral ProjectLink & PDMLink solution bundle
- Integral user interface and infrastructure
- Common CAD and desktop components
- Share and exchange data between PDMLink products and ProjectLink projects
- Search across projects and product with common indexed search
- Explore product design alternatives in project sandbox

CAD & Visualization Enhancements

- CATIA V5, Inventor, CADDs support
- Project workspace view
- Lightweight viewer

Usability Improvements

- Edit and directly publish from Microsoft Office applications
- User-specific recently accessed items and hotlist

- Filter files and use pre-defined views

Tips of the Week

Configuring a Windchill ProjectLink 7.0 Workflow and Lifecycle

The business scenario covered within this tutorial enables core internal project participants to collaborate on the approval of a document by leveraging the Windchill ProjectLink workflow engine capabilities. After a document is fully approved, team members outside of the internal approval process will automatically be notified of this event via standard email communication.

Topics include creation of the workflow and lifecycle, creating an assignment task page to display disposition radio buttons and a hyperlink which points to the running workflow, enabling the new lifecycle / workflow for use within the organization, and finally running the configured workflow by using either an ad-hoc document routing or by simply selecting the type of document during its creation.

E-PROFILES IS HERE!!

We have been eagerly anticipating the debut of the new electronic version of Profiles Magazine and now it is here! This new web site will supplement the print edition of the magazine and will provide new useful features not feasible with paper media. e-Profiles will provide you with 24x7, worldwide access to key information previously available exclusively in the print version. "Tips & Tricks," a popular feature pioneered by Pro/USER, has also moved to the web and will be expanded as the site matures. Future plans include several foreign-language editions of Profiles for our many international readers. Currently, Profiles is printed in English and Japanese.

Please take a few minutes to check out this new web site. We don't think you will be disappointed.
