English

COURSE OVERVIEW

Leverage the analytics maturity model to design different Thing Model elements. Use ThingWorx Analytics to analyze data to determine which factors influence the outcome most.

PREREQUISITES

ThingWorx: Fundamentals Overview

LEARNING OBJECTIVES

- Explain the components of the analytics maturity model
- Design an LED display that adjusts its color based on input data
- Utilize ThingWorx Analytics features, such as Data, Signals, Profiles, Models, and more
- Formulate a predictive model and put it into operation
- Develop a prescriptive model that automatically adjusts a Thing's properties
