

ThingWorx: Service Authoring and Wrappers

Find a Class

COURSE TYPE

Class with Hands-on Practice

DURATION

3 Hours

DELIVERY METHOD

Instructor-Led Virtual

CONTENT LANGUAGES

English

COURSE OVERVIEW

Practice writing ThingWorx services. You will do that by using the most common use case, provisioning new modeled things programmatically. By doing so, you will manipulate infotables, create Things, and access remote systems by authoring JavaScript-based services.

PREREQUISITES

- ThingWorx Fundamentals Certification
- Programming experience

LEARNING OBJECTIVES

- Author services
- Troubleshoot services
- Provision things
- Manipulate infotables programmatically
- Access third-party REST APIs
- Manage security in relation to the provisioning of things
