ThingWorx LEARN
Online Subscription

Virtual Training Made Simple

With a ThingWorx LEARN Online Subscription, unlimited high-quality training is at your fingertips. Students have access to as many three-hour virtual instructor-led trainings and tutorials as they need to succeed, including Kepware training courses.

What Are The Benefits of a Subscription?

A LEARN Online Subscription eliminates the need for additional expense or travel. With classes offered globally, students can choose to onboard as a new user, polish their existing skills, or upskill to stay competitive from anywhere in the world. Whether you're coming in from another system, need a refresher or require specific training, LEARN Online is right for you. Set yourself apart with a ThingWorx certification; we have it all!

Ask about LEARN Online

THINGWORX CERTIFICATIONS

Two levels of certification are included as well as access to our tutorials and playlists at no extra cost.

LIVE INSTRUCTORS

Unlimited access to live, 20+ half-day virtual instructor-led training classes taught by world-class instructors.

LIVE VIRTUAL CLASSES

Students will train in our user-friendly virtual class environments with no local installation requirements.

FLEXIBLE CLASS SCHEDULES

Complete flexibility in where and when students choose to learn in three-hour class sessions.

Getting ThingWorx Certified Has Never Been Easier!

Take the chance to level up your IoT skills and become a ThingWorx or ThingWorx Kepware power user! To get certified, all you need to do is pass a comprehensive exam covering courses that you will access through your LEARN Online Subscription.

Then share your digital badge to your network and earn an industry-recognized certification from the only authorized PTC certification provider. Get certified and validate your skills today!
